

THE GILROY

NEW YORK

One hundred years after the decade that roared, the architecture, design and décor of the 1920s is as engaging and alluring as ever. From its discreet entrance to its Deco- inspired crown, THE GILROY infuses the essence of '20s elegance with a confident, modern sensibility. Inspired by the grand hotel lobbies and sensual speakeasys of the Jazz Age, the rich materiality, artistic details and refined finishes of the interiors and amenities elevate these rental residences to a level usually reserved for condominiums. Located in Midtown East, THE GILROY is just steps from some of the city's best shopping, dining, art, music and entertainment venues.
